REQUEST FOR EXPEDITED ISSUANCE

Applicant paid the issue fee on this application one year ago, July 15, 2005. At that time, Applicant submitted a 312 Amendment. In April of this year, the 312 Amendment was entered. In June, Applicant received a Supplemental Notice of Allowability. This Supplemental Notice reiterated the Examiner's Statement of Reasons for Allowance only and confirmed allowability over the 312 Amendment. It should not have delayed issuance. A patent still has not been received. On May 17, 2006, Applicant submitted by facsimile a Request for Expedited Issuance. The next day, a phone call was received from the Office of Patent Publication, indicating that the Request was granted and the patent would be expedited. It is two months later and Applicant still has not received the patent, only a Supplemental Notice of Allowability. Applicant thus requests the promptest possible issuance of his patent.

COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Applicant appreciates Allowance of claims 1-28, and the Examiner's attempt to encapsulate some of his reasoning. As the Examiner's Statement is unchanged, Applicant must take issue with the Examiner's Statement and Applicant incorporates by reference his previous comments on this subject. It is not Applicant's intention to allow any claim to be construed in accordance with the Examiner's Statement since the Statement is misleading as to the scope of Applicant's claims.

Respectfully submitted,

REQUEST FOR CORRECTED SUPPLEMENTAL NOTICE OF ALLOWABILITY

The Supplemental Notice of Allowability mailed June 15, 2006, appears to be in error. Item 6 indicates that corrected drawings must be submitted pursuant to an attached PTO-948. There was no PTO-948 attached to the Supplemental Notice of Allowability. Moreover, Applicant checked Private PAIR and determined that there was no such PTO-948 requesting any drawing correction. Accordingly, it is believed that no drawing correction is required. The Examiner appears to have copied the original Notice of Allowability but the drawing requirement made therein was long ago addressed. So as to avoid an erroneous record, Applicant requests issuance of a corrected Supplemental Notice of Allowability.

Respectfully submitted,

REQUEST FOR CORRECTION OF PTO DATABASE

Applicant has noted an error on Private PAIR, and requests correction. The paper mailed June 15, 2006, was a "Supplemental Notice of Allowability", but Private PAIR shows it listed as a "Notice of Allowance and Issue Fee Due (PTO-85)." This is incorrect.

Publication of Applicant's patent has been delayed an inordinately long time and Applicant wishes to make sure that this incorrect listing does not cause further delay.
